

Instruction and Example Sheet:

A simple example of how you can put together the materials included in this bulletin board kit. Please keep in mind that this is simply a suggestion and that you can arrange the materials in any format imaginable. The goal is to spread awareness about Domestic Violence and bring an end to it.

We at Jane Doe Inc. are very excited that you are showing interest in prevention of domestic violence! This bulletin board kit was created to better educate individuals about the reality of domestic violence and show how it impacts many different kinds of people. We feel that the more awareness there is about the subject the better we can influence our culture to take an active part in bringing it to an end. This bulletin board is the first step towards doing just that.

This board was made to be simple and easy to put together, so an example is presented of how you can arrange the materials included in this kit. However, it was also made to be highly customizable so that it can be arranged in any format you wish. The example is simply one possibility of many. The steps are simple:

1. Download any of the pdf's that you wish to include on the board and print them out.
2. Look through the supplements included on the list to see if you would like to use any of them.
3. Post the materials together in a finished format that is quick and easy.
